Safety Gear:	Fire blanket
	Hard flare, red, comet
	Life Buoy 75 cm 2.5 kg eval with "ALMA" printed
	Life Sling-3 - type V - 150' retrieval line with fibreglass casing

Summary:

ALMA has had one owner since new and was built to the owner's specifications. Her layout and equipment have been carefully selected by experienced owners and she could arguably be one of the most complete GB47 EU's in the world.

Her upkeep and maintenance has been performed by Grand Banks and she has recently been stored at the Grand Banks Factory at which time she benefitted from a complete factory service on all critical parts and equipment.

ALMA has cruised around South East Asia and resides full time in Singapore. Her owners have recently purchased a larger Grand Banks therefore ALMA is available immediately and is ready for a new season where ever her new owner might wish to bring her.
